ENTERPRISE NURSERIES

●
GEO. E. STEIN & SON

Wrightsville, R. D. 1

YORK COUNTY, PENNA.

Growers of Quality

**Fruit, Shade and Ornamental Trees,
Flowering Shrubs, Evergreens, Etc.**

A Personal Message

WE take great pleasure in presenting to you, on our 40th anniversary, our new catalog. It brings to you a complete list of our quality Nursery Stock. Thanks to our many customers and friends we have been privileged to continue our business for 40 years in this our chosen field, and we desire above all things, to serve you just as we ourselves would like to be served.

This new catalog is somewhat similar to its predecessors. It presents in a simple ready reference form the material growing in our nurseries, briefly described in a manner that we believe will help you visualize the tree or fruit. However, you may miss an oldtime item here and there as you turn the pages. They were dropped to make room for new and better things.

We sincerely hope your investment in our merchandise and service may prove very profitable to you, and that in all our dealings with you we may merit your confidence and good-will. If we can do this, we know your patronage will naturally follow.

GEO. E. STEIN & SON

WE INVITE YOU TO VISIT OUR NURSERIES

Our Nursery and office are located one-half mile north-west of East Prospect on the road leading from East Prospect to Wrightsville.

To reach our Nursery from York take Route 124 to East Prospect, and turn left at square.

From Red Lion Route 624 to Craley, and 124 to East Prospect, and straight through at square.

From Wrightsville take first macadam road leading south, at west end of borough on Lincoln Highway.

No Business Transacted on Sundays

INSTRUCTIONS TO PURCHASERS

Orders. Orders should be sent in just as soon as possible after receiving catalog. By placing orders early you are more certain of getting the varieties wanted, as late in the season we are often sold out of some varieties. If ordered early we can reserve the stock until proper time for planting.

Shipping. We have adequate shipping facilities and can ship in any direction with the probability of prompt arrival at destination. All shipments travel at the cost and risk of the purchaser.

Truck Deliveries. Truck load orders will be delivered free, reasonable distances; long hauls and smaller orders delivered by special arrangement. We are well equipped to make prompt delivery.

Guarantee and Claim. All stock is guaranteed to be true-to-name, dug properly, and in good condition when shipped. Any tree or plant which is untrue to name will be promptly replaced. In case of any error on our part, it is mutually agreed between the purchaser and ourselves that we shall not at any time be held responsible for a greater amount than the original price of the nursery products.—As we have no control over its care and usage after it leaves our hands, we cannot guarantee it to live and grow or to give specific results.—We insist that all claims for damaged or unsatisfactory stock be made promptly.

Planting. Proper planting is important and to this end we have developed an organization that is competent to handle planting for you at a nominal charge.

Terms Cash, except when expressly agreed otherwise.

Substitution. We reserve the right in case we are out of a variety, to substitute another of equal merit when it can be done—unless the order is plainly marked NO SUBSTITUTION. In this case we will fill the order as completely as possible and refund the balance of remittance, if paid in advance.

Prices. The prices quoted in this catalog are F. O. B. our Nurseries except where otherwise noted. They are as low as was consistent at the time of printing, considering wages and other costs. However, they are subject to change without notice.

How to Figure Your Order. One to four trees or plants sold at the each rate; 5 to 30 at the ten rate; 30 to 300 at the 100 rate.

Our Nurseries are inspected and our stock certified by the Pennsylvania Department of Agriculture. Every shipment will be accompanied by a Certificate of Inspection.

B. & B. indicates that a tree will be Balled & Burlapped at price listed. Should any other tree or shrub be desired B. & B. there will be the following scale of charges: 2 to 3 ft. \$.15, 3 to 4 ft. \$.20, 4 to 5 ft. \$.30, 5 to 6 ft. \$.40, 6 to 8 ft. \$.60, 8 to 10 ft. \$.75. Larger sizes will be charged in proportion.

The above is a photograph of our exhibit at the Penna. Farm Show, which is held at Harrisburg each January. This is one of the greatest Agricultural shows in the world. We have exhibited at this show for several years and have attracted much attention with the quality of our Nursery Stock.

APPLES

Our list of varieties is confined to the best ones only. Most varieties of Apples on our list do well in all sections of the country where Apples are grown. For spraying instructions consult your County Agent or Experiment Station in your state.

PRICE OF APPLES. 1 Year.

	Each	Per 10	Per 100
3 to 4 ft.....	\$.40	\$3.00	\$25.00
4 to 6 ft.....	.50	4.00	30.00

PRICE OF APPLES. 2 Year.

	Each	Per 10	Per 100
4 to 5 ft.....	\$.50	\$4.00	\$35.00
5 to 6 ft.....	.60	5.00	40.00

SUMMER VARIETIES

YELLOW TRANSPARENT. Earliest and best; white, tender, juicy, sprightly sub-acid; grows upright; bears when young, making good filler.

EARLY HARVEST. Medium; pale yellow; tender, juicy, good quality.

SUMMER RAMBO. Very large; greenish red, striped; tender, juicy; tree strong grower.

RED ASTRACHAN. Large, nearly covered with deep crimson, juicy, rich, acid, beautiful.

EARLY STRAWBERRY. Tender, juicy, productive.

WATERMELON. Large, pale yellow; sweet, tender and juicy.

EARLY McINTOSH. A McIntosh hybrid being almost solid red. Flesh white, crisp and juicy, with the same high quality as McIntosh.

FALL VARIETIES

GRAVENSTEIN. Large striped, fine quality, one of the best fall sorts.

MAIDEN BLUSH. One of the most beautiful; pale lemon with crimson cheek; flesh white, tender and crisp.

WEALTHY. Almost solid red. Flesh white, tender, crisp, juicy, fine grained.

McINTOSH. Medium size, nearly covered with red, flesh yellowish, tender, juicy, sub-acid.

SMOKEHOUSE. Fruit medium to large. Color yellow or greenish mottled with red.

WINTER VARIETIES

GRIMES GOLDEN. Large, skin golden yellow; flesh tender and crisp. A very good apple.

STAYMAN WINESAP. A profitable sort to grow for market, and for home use. Large in size, fine appearance, good quality, juicy and crisp, color red.

ROME BEAUTY. Large; roundish, with bright red on a pale yellow ground. A profitable variety.

DELICIOUS. Red, fine grained; juicy, quality very good. A good apple for either home use or market.

YELLOW DELICIOUS. A good variety, resembling the Red Delicious somewhat in shape. Ripens about the same time as Grimes Golden.

GALLIA BEAUTY. A solid red Rome Beauty sport. It is typical of Rome Beauty in every way except that the fruit averages smaller.

CORTLAND. A cross between McIntosh and Ben Davis, inheriting the good qualities of both parents. It is a beautiful red, larger than McIntosh, and matures a month later; hangs well to the tree.

PARAGON. An apple of large size; yellowish, covered with deep red, flesh tender, sub-acid aromatic.

WINTER BANANA. Large, golden yellow and beautifully shaped with bright crimson red. Flesh lemon yellow, fine grained, sub-acid, rich, aromatic flavor.

PARADISE WINTER SWEET. Large; creamy white, rosy cheeked. One of the best sweet winter varieties.

RHODE ISLAND GREENING. Large, greenish yellow, tender, juicy, rich, acid. The old reliable Winter cooking apple, and also good for dessert.

FALLAWATER (sometimes called Pound Apple). Large; yellowish green.

HUBBARDSTON. Large, red, striped, tender, juicy.

STARK. Large, striped, mild, sub-acid, good. Valuable as a keeper.

BALDWIN. Large, bright red, crisp, juicy, rich.

RAMBO. Medium, red and yellow. Mild flavor. Excellent old variety.

YORK IMPERIAL. A medium to large winter apple with yellow skin shaded red; firm, juicy, sub-acid. An excellent canning and shipping apple.

JONATHAN. Most beautiful of all apples. Fruit medium to large, roundish, yellow nearly covered with red.

CRAB APPLES

HYSLOP. Large; deep crimson; one of the most beautiful; very popular.

TRANSCENDENT. For many years the most popular crab apple. Fruit about an inch in diameter, yellow, with red cheek.

PEACHES

We are offering only a limited number of varieties, ones that you can depend on giving you a good erop of fruit.

PRICE OF PEACHES	Each	Per 10	Per 100
2 to 3 ft.....	\$.25	\$2.00	\$15.00
3 to 4 ft.....	.30	2.50	18.00
4 to 5 ft.....	.40	3.00	20.00
5 to 6 ft.....	.50	4.00	25.00

Varieties listed according to season of ripening as near as possible.

SNEED (Cling). Bright red cheeks. Earliest market Peach.

GREENSBORO (Semi-Cling). Hardy and productive, fruit large and tree healthy. Color white with erimson cheek.

GOLDEN JUBILEE. Yellow, freestone, ripening four or five days ahead of Carman. Very attractive peach of good size and fair quality. It withstands shipment better than most early varieties.

CUMBERLAND. A seedling crossed with Greensboro. The fruit is larger than Belle, attractively colored with red, oval in shape. The flesh is white, almost free.

CARMAN (Semi-Cling). Large, creamy white skin, mostly covered red; tender, juicy.

HILEY (early Belle). It resembles Belle of Georgia. White-fleshed pretty red cheek and good quality.

ROCHESTER. Has the habits and charaacteristies of the Crawford. Yellow, freestone, very sweet and fine flavor.

SOUTH HAVEN. Yellow, freestone, deep yellow with a red cheek, delieious flavor. Ripens about fifteen days ahead of Elberta. Tree very hardy.

HALE HAVEN. Yellow freestone, colors before ripening. Very hardy in fruit bud and a heavy bearer.

CHAMPION. A large, handsome, early variety. Creamy white with red cheek; sweet, rich and juicy; hardy and productive.

BELLE OF GEORGIA. Very large Peach with red cheek, flesh white and firm, of excellent flavor.

OLD MIXON. A showy, white-fleshed peach with a bright red cheek. Large, juicy, sweet and good.

EARLY ELBERTA. This is one of the finest of all the Elberta family. Ripens from one week to ten days earlier than the Elberta.

ELBERTA. Mid-season. A valuable large peach, of good quality; fruit large, yellow with red cheek; flesh yellow; freestone. The leading market variety.

J. H. HALE. One of the best sorts for market or garden. Fruit is very large, round, quality excellent. Skin yellow finely colored, flesh yellow. A very good one.

SHIPPER'S LATE RED. A large highly colored Peach. Very hardy, yellow fleshed and freestone, of good quality. Ripens just after Hale and Elberta.

GOLD DROP. Medium size, hardy, very productive, good quality, early bearer.

STEPHEN'S R. R. White, partly covered with red. A Peach of good size and a splendid market variety.

SALWAY. A late yellow variety. Latter part of September to Oetober 15.

IRON MOUNTAIN. Freestone. Fruit is of large size; color, white.

BILYEU'S LATE. Flesh white and firm. The latest variety known. Keeps long after picking.

SWEET CHERRIES

(Budded on Mazzard Root)

We specialize on growing Cherry trees as our soil and climate is adapted for growing good thrifty trees. Our sweet cherry are all budded on Mazzard seedlings, which has been proven the best understock for the sweet cherry.

We take special care to have our varieties true to name and during the growing season we endeavor to keep our trees in the best condition by spraying with a fungicide spray. We have had very good success by using Bordeaux Mixture. If you have had trouble to grow cherry trees, may we suggest that you try this method.

	Each	Per 10

Two year, 5 to 6 ft.....	1.00	8.50
Extra Selected.....	1.50	12.50

A view in our one year sweet cherry block.
Japanese Barberry in center.

BLACK TARTARIAN. Large, bright purplish black; juicy, rich. Tree a remarkably vigorous and erect grower, and an immense bearer. One of the most popular old varieties.

SCHMIDT'S BIGGAREAU. The fruit is of very large size, of deep mahogany color. Flesh dark, very firm and juicy, with a fine rich flavor. Fruit grows in clusters. Is an excellent shipper.

WINDSOR. Fruit large, liver-colored, distinct, flesh remarkably firm and of fine quality. Tree hardy and prolific. A valuable late variety.

YELLOW SPANISH. A pale yellow cherry with bright red cheek. It is one of the most popular light-colored cherries; vigorous and productive.

NAPOLÉON BIGGAREAU (Royal Ann). A beautiful cherry of large size; pale yellow with bright red cheeks; flesh firm, juicy and sweet; one of best for market and canning.

BING. Takes high rank in the west. Fruit very large, dark red, almost black; good quality; flesh very solid and delicious.

LAMBERT. A large purple red, meaty, juicy; good quality. Tree a strong grower and enormous bearer.

JAPANESE flowering cherry listed on page 16

SENECA. Large purplish black, with juicy melting flesh and a rich sweet flavor. Resembles Black Tartarian but is more than two weeks earlier. A splendid early variety.

IDA. A very good rather early, light colored cherry, sweet and juicy; with a bright red cheek; a good bearer.

GOVERNOR WOOD. Large, heart-shaped; light yellow, mottled light red, juicy, sweet and rich. An old variety still a favorite in many regions.

OXHEART. Large, heart shaped, solid. Yellow with red check. Tree healthy and productive.

SOUR CHERRIES

BARTLETT. Season last of August to September 15th. Good strong grower, flesh is white, fine grained, luscious, large and buttery, has a rich melting flavor and very sweet. Excellent for canning.

CLAPP'S FAVORITE. Fruit large, yellow lemon color, spotted with brown dots; flesh fine, rich and sweet.

DUCHESS. Strong grower, productive, not subject to blight. Fruit large, light green patched with russet, melting, juicy, sweet and good.

KIEFFER. One of the most prolific pears. It is an abundant and regular bearer. Good shipper. Fruit large, color yellow with red cheek. Begins fruiting successfully when three years old. Season October.

SHELDON. A large, round, russet pear of very fine quality; melting, rich, and delicious. Tree vigorous, erect, and handsome; bears well.

LAWRENCE. Medium greenish yellow with brown dots, melting, pleasant, aromatic. Very productive.

SECKEL. Medium size, skin rich, yellowish brown with deep brownish red check when fully ripe; flesh very fine grained, sweet, exceedingly juicy, melting, buttery. One of the richest and highest flavored pears known.

WORDEN SECKEL. Seedling of Seckel. Much larger, very fine quality, sweet; yellow with beautiful red cheek.

BEARING AGE FRUIT TREES

To the planter who wants quick results, we can offer some extra large trees, three or more years old, some of which bore in the Nursery row last summer.

We can supply **APPLE, PEAR, PLUM** and **CHERRY** in assorted varieties.

PRICES. 1 to 1½ in. cal..... \$1.50 B. & B. \$2.00
1½ to 2 in. cal..... 2.50 B. & B. 3.25

Larger sizes, price on application.

PLUMS

(Budded on Plum Root)

	Each	Per 10
Light first-class.....	\$.40	\$3.50
First-class, 4 to 5 ft.....	.50	4.00
Extra size, 5 to 6 ft.....	.75	6.00
ABUNDANCE. One of the oldest and best varieties; hardy, productive. Fruit large, good quality. August.		
BURBANK. Most profitable among growers for market; ripens ten days after Abundance. Very productive.		
RED JUNE. Productive; fair size, vermilion red; pleasant quality. Ripens a week before Abundance.		
GOLD (Shiro). Large, oval, bright yellow; rich, juicy, fine quality. A good grower. Early.		
LOMBARD. Dark purplish red, hardy and productive.		
IMPERIAL GAGE. Greenish yellow, sweet and juicy.		
GRANDE DUKE. Large, dark violet-red. Last of September.		
SATSUMA. Large, globular, with sharp point. Flesh dark red or blood color, firm and juicy, fine quality; pit very small. Hardy and vigorous grower.		
BRADSHAW. A very large and fine early plum, dark violet red, juicy and good. Very productive; valuable for market.		
LINCOLN. Fruit almost the color of Bradshaw, large, good quality; excellent for all purposes.		
GERMAN PRUNE. Large, dark purple, sweet, good. One of the most popular for canning, because of its sweetness.		
ITALIAN PRUNE. Good size, purple, juicy, delicious, fine for drying. September.		
STANLEY PRUNE. A fine blue plum of medium size and high quality. Bears early and is a heavy producer.

3 to 4 ft. grafts..	1.50
4 to 5 ft. grafts..	2.00

NORTHERN PECANS

BUTTERICK. This is a large size nut with a real paper-shell; high quality.

GREENRIVER. The nut is medium size; thin shell; kernel full and plump, good quality.

INDIANA. One of the largest and best pecans. Heavy bearer.

	Each
3 to 4 ft. grafts.....	\$2.25
4 to 5 ft. grafts.....	2.50
5 to 6 ft. grafts.....	3.00

PERSIMMONS

We offer a good assortment of varieties of our native persimmon. The trees are very ornamental as well as fruitful. Plant a tree or two and enjoy its fruits. The trees we offer are all budded from fruiting trees. This causes them to start bearing at an early age. Some of our small trees bore fruit in the nursery row.

LAMBERT. Large size fruit, good quality, productive.

EARLY HARVEST. Round type of fruit, fine flavored.

COOPER. Good quality, heavy bearer. Tree hardy and prolific.

	Each
2 to 3 ft.....	\$1.00
3 to 4 ft.....	1.50
4 to 5 ft.....	2.00
5 to 6 ft.....	2.50
Top-worked trees with two or more varieties on one tree.....	\$2.50

MULBERRIES

“Plant a tree or two to feed your feathered friends—the Birds.”

DOWNING. Very large, black, handsome, sweet, rich, and of excellent quality.

	Each
4 to 5 ft.....	\$.75
5 to 6 ft.....	1.00

RUSSIAN. Very hardy vigorous grower. Fruit small, varies in color from white to black.

	Each
5 to 6 ft.....	\$.50

EVERBEARING RUSSIAN. Large black berries, sweet and juicy. Very productive, bears from June to August.

	Each
5 to 6 ft.....	\$1.00

In most varieties we can supply smaller or larger sizes than listed. Prices on application.

SMALL FRUITS

GRAPES

2 Year, \$.20 each, \$1.50 per 10, \$12.00 per 100

1 Year, 5 cents less per vine

BRIGHTON (Red). High quality, large.

NIAGARA (White). Standard white variety.

CONCORD (Blue). An old variety, very productive.

WORDEN (Blue). Earlier than Concord.

THREE NEW GRAPES OF MERIT

2 Year, \$.40 each, \$3.50 per 10

8 to 10 ft.....	.85	6.50
10 to 12 ft.....	1.25	10.00

ASH**EUROPEAN MOUNTAIN ASH**

(Sorbus aucuparia)

A valuable tree on a small lawn; the scarlet berries are quite striking.

	Each
5 to 6 ft.....	\$1.50
6 to 8 ft.....	2.25
8 to 10 ft.....	3.00

OAKLEAF MOUNTAIN ASH

(Sorbus quercifolia)

A hybrid form similar to type in general character, but with larger leaves resembling that of the oak.

5 to 6 ft.....	\$1.25
6 to 8 ft.....	2.00

WILLOWS

Rapid growing trees desirable for quick effects. Of distinctive form, making pleasing contrast with other trees. Must not necessarily be planted near water.

BABYLON WEeping WILLOW (Salix Babylonica)

Pretty as single specimen to contrast with upright trees and particularly attractive near water; branches olive-green, slender and drooping.

	Each
5 to 6 ft.....	\$.75
6 to 8 ft.....	1.00
8 to 10 ft.....	1.75
10 to 12 ft.....	3.00

Babylon Weeping Willow

ELM

AMERICAN ELM (Ulmus americana)

Stateliness and dignity are here exemplified. Fairly rapid in growth, this typical American tree soon assumes regal proportions and commands respect of all who look upon it.

6 to 8 ft.....	\$. 75
8 to 10 ft.....	1.25
10 to 12 ft., 1½ to 2 in. cal.....	2.25
12 to 14 ft., 2 to 2½ in. cal.....	4.00

MOLINE ELM (Ulmus Moline)

A new variety of extremely strong growth with large handsome deep green foliage. Very desirable.

8 to 10 ft.....	\$1.50
10 to 12 ft.....	2.50
12 to 14 ft.....	3.50

CHINESE ELM (Ulmus pumila)

Beautiful, fast grower, very hardy.

6 to 8 ft.....	\$1.25
8 to 10 ft.....	1.75
10 to 12 ft., 1½ to 2 in. cal.....	3.00

OAK

PIN OAK

(Quercus palustris)

Graceful, spreading. Pyramidal habit; deeply cut leaves held late into winter. Good lawn or street tree.

	Each
6 to 8 ft.....	\$1.50
8 to 10 ft.....	2.50
10 to 12 ft., 1½ to 2 in. cal.....	4.00
12 to 14 ft., 2 to 2½ in. cal.....	6.00

SCARLET OAK

(Quercus coccinea)

Most striking autumn colors; tall, stately grower, deeply cut leaves.

6 to 8 ft.....	\$3.50
8 to 10 ft.....	5.50

PLANE TREES

ORIENTAL PLANE

(Platanus orientalis)

A good tree for park and street use; grows rather quickly; withstands smoky city conditions.

6 to 8 ft.....	\$1.25
8 to 10 ft.....	1.75
10 to 12 ft., 1½ to 2 in. cal.....	2.75

12 to 14 ft., 2½ to 3 in. cal.....	4.50

MAGNOLIA

SAUCER MAGNOLIA

(Magnolia soulangeana)

Producing large cup-shaped, white and rosy violet flowers 3 to 5 inches across, in the spring before the leaves unfurl. This variety is the hardiest and most adapted to northern conditions.

18 to 24 in., B. & B.....	\$1.75
2 to 3 ft., B. & B.....	2.50
3 to 4 ft., B. & B.....	3.75

DOGWOOD

WHITE FLOWERING DOGWOOD

(Cornus florida)

Among the best of the spring flowering small trees.

3 to 4 ft., B. & B.....	\$1.50
4 to 5 ft., B. & B.....	2.00

RED FLOWERING DOGWOOD

(C. florida rubra)

Slower growing and more formally shaped, with handsome red flowers. An attractive lawn specimen or group subject.

2 to 3 ft., B. & B.....	\$2.25
3 to 4 ft., B. & B.....	3.50
4 to 5 ft., B. & B.....	4.50

MULBERRY

TEA'S WEEPING MULBERRY

(Morus alba pendula)

The most graceful hardy weeping tree in existence. Forms a perfect shaped head, with long, slender, willowy branches, drooping to the ground.

Grafted on stems 4 to 5 ft. high.

Light heads.....	\$1.00
Medium heads.....	1.25
Large heads.....	2.25

CATALPA

UMBRELLA CATALPA

(Catalpa Bungei)

Useful in formal planting.

6 to 8 ft.....	\$.60
8 to 10 ft.....	.75

JAPANESE FLOWERING CHERRY

The Japanese Cherry trees vary greatly in form. Their beauty and charm is indeed individual. The varieties we offer are the best obtainable.

BENI-HIGAN CHERRY

Great clouds of pale pink single flowers begin to expand in March and gradually envelop the tree.

5 to 6 ft., B. & B.....	\$2.75
-------------------------	--------

AMANOGAWA CHERRY

A distinct form with a Lombardy Poplar style of growth. Semi-double pink flowers gracefully hang in dense clusters.

5 to 6 ft., B. & B.....	\$2.50
-------------------------	--------

KOFUGEN (James H. Veitch)

One of the latest to bloom; the large double pink flowers expand with the coppery young foliage; a nice contrast. This is the most popular and reliable variety.

4 to 5 ft., B. & B.....	1.75
5 to 6 ft., B. & B.....	2.50
6 to 8 ft., B. & B.....	3.50

MT. FUJI CHERRY

Undoubtedly the finest double white. Large and pure in color, the flowers blanket the well formed tree as would snow.

5 to 6 ft., B. & B.....	\$2.25
-------------------------	--------

KWANZAN CHERRY

Large double pink flowers, almost red in bud. Well formed tree, vigorous grower.

Each	Each
4 to 5 ft., B. & B... \$2.00	5 to 6 ft., B. & B... \$2.75

SIEBOLD CHERRY (Naden)

Small tree, very showy, pale pink semi-double blossoms.

4 to 5 ft., B. & B.....	\$1.75
-------------------------	--------

WEeping JAPANESE CHERRY

A most beautiful and graceful tree, covered with single pink blossoms in early Spring.

2 yr. head, B. & B.....	\$3.00
-------------------------	--------

DOUBLE FLOWERING WEeping JAP. CHERRY

Imagine, if you can, a glorified weeping cherry with the same graceful fountain-like sweep of branches, each thickly studded with double pink flowers; it is truly magnificent.

2 yr. head, B. & B.. \$2.25	3 yr. head, B. & B.. \$3.50
-----------------------------	-----------------------------

In most varieties we can supply smaller or larger sizes than listed. Prices on application.

FLOWERING CRABS

The Flowering Crab Apples, with their fragrant flowers in a great array of colors, followed by attractively colored fruits, are coming more and more into general favor for ornamental planting.

SARGENT CRAB (Malus sargentii)

A dwarf spreading Japanese type with pure white flowers and small showy scarlet fruits which hang till Spring, unless eaten by the birds.

4 to 5 ft.....	\$2.25
5 to 6 ft.....	3.50

CARMINE CRAB (Malus atrosanguinea)

Very showy; rich rose-red blossoms.

5 to 6 ft.....	1.75
----------------	------

BECHTELS CRAB (Malus ioensis plena)

Large, double, fragrant flowers, delicate shell-pink, resembling small roses.

3 to 4 ft.....	\$1.00
4 to 5 ft.....	1.50
5 to 6 ft.....	2.25

FLOWERING PEACH AND PLUM

DOUBLE RED FLOWERING PEACH

Habit of growth similar to that of a peach tree. The double red flowers are very attractive in the early Spring.

3 to 4 ft.....	\$.75	5 to 6 ft.....	\$1.50
4 to 5 ft.....	1.00		

DOUBLE FLOWERING PLUM (Prunus triloba)

Upright in growth; slender branches completely covered with double pink flowers before leaves appear.

2 to 3 ft.....	\$.60	3 to 4 ft.....	\$.75
----------------	--------	----------------	--------

PURPLELEAF PLUM (Prunus pissardi)

Valued chiefly for its purplish foliage; should be pruned every year for best color effect.

3 to 4 ft.....	\$.50	5 to 6 ft.....	\$1.25
4 to 5 ft.....	.75		

ORNAMENTAL SHRUBS

ALTHEA—ROSE OF SHARON

ALTHEA (Hibiscus syriacus)

A large shrub, sometimes trimmed into tree form, that blooms freely in August or September, when almost every tree is out of bloom. Vigorous grower and succeeds everywhere. Also called Rose of Sharon. We can furnish double varieties in these colors: Purple, Red, Pink and White.

18 to 24 in.....	\$.25	3 to 4 ft.....	\$.50
2 to 3 ft.....	.35		

FORSYTHIA—(GOLDEN BELL)

FORTUNE FORSYTHIA (Forsythia suspensa fortunei)

Good habit, arching branches, vigorous grower.

	Each
2 to 3 ft.....	\$.30
3 to 4 ft.....	.40
4 to 5 ft.....	.50

SHOWY BORDER FORSYTHIA

(Forsythia intermedia spectabilis)

Most profuse of all, with rich golden yellow flowers.

2 to 3 ft.....	\$.35
3 to 4 ft.....	.50
4 to 5 ft.....	.60

<p>Deduct 10% of price for 5 or more of one variety of all Flowering Shrubs.</p>
--

SPIREAS

VAN HOUTTE SPIREA (*Spirea vanhouttei*)
Grandest of all Spireas; very desirable shrub. Abundance of pure white blooms, graceful habit.

Each		Each	
18 to 24 in.....	\$.15	3 to 4 ft.....	\$.35
2 to 3 ft.....	.25	4 to 5 ft.....	.50

BILLARDI SPIREA (*Spirea billardi*)
Bright pink fluffy flower spikes, July-October. Valuable for dry places.

2 to 3 ft.....	\$.25	4 to 5 ft.....	\$.50
3 to 4 ft.....	.35		

ANTHONY WATERER SPIREA

Deep rose pink; very free flowering all summer.

12 to 15 in.....	\$.20	18 to 24 in.....	\$.40
15 to 18 in.....	.30		

BLUE SPIREA (*Caryopteris incana*)

Lavender-blue flowers, Sept.-Oct. Splendid for massing. Requires protection.

15 to 18 in.....	\$.30	18 to 24 in.....	\$.40
------------------	--------	------------------	--------

THUNBERG'S SPIREA (*Spirea thunbergi*)

White flowers with feathery, yellowish green foliage.

2 to 3 ft.....	\$.40	3 to 4 ft.....	\$.50
----------------	--------	----------------	--------

DEUTZIAS

SLENDER DEUTZIA (*Deutzia gracilis*)

White, bell-shaped flowers. Dwarf grower, fine for edging other shrubbery.

15 to 18 in.....	\$.30	2 to 3 ft.....	\$.50
18 to 24 in.....	.40		

LEMOINE DEUTZIA (*Deutzia lemoinei*)

Early bloomer; white flowers on upright branches.

15 to 18 in.....	\$.25	2 to 3 ft.....	\$.45
18 to 24 in.....	.35		

SNOWFLAKE DEUTZIA (*Deutzia candidissima*)

Vigorous, graceful grower; double white flowers. One of the best.

2 to 3 ft.....	\$.25	4 to 5 ft.....	\$.40
3 to 4 ft.....	.30	5 to 6 ft.....	.50

DEUTZIA PRIDE OF ROCHESTER

(*Deutzia seabra*)

Vigorous, large flower tinged pink, June.

3 to 4 ft.....	\$.35	4 to 5 ft.....	\$.45
----------------	--------	----------------	--------

DOUBLE PINK DEUTZIA (*Deutzia crenata*)

Pink, slightly fragrant, June.

2 to 3 ft.....	\$.30	3 to 4 ft.....	\$.40
----------------	--------	----------------	--------

SNOWBALL—VIBURNUM

JAPANESE SNOWBALL (*Viburnum plicatum*)

Upright, somewhat spreading habit; covered in June with dense heads of snowy-white flower-clusters, which have a beautiful setting in the deep green foliage.

18 to 24 in.....	\$.35	3 to 4 ft.....	\$.60
2 to 3 ft.....	.50	4 to 5 ft.....	.75

EUROPEAN CRANBERRY-BUSH (*V. opulus*)

Flat heads of showy, white flowers, three to four inches across, May and June, followed by clusters of bright scarlet fruit, remaining over winter.

18 to 24 in.....	\$.30	3 to 4 ft.....	\$.50
2 to 3 ft.....	.40		

Most Flowering Shrubs can be moved when in bloom, if they are B. & B.

MOCK-ORANGES

SWEET MOCK-ORANGE (Philadelphus coronarius)

White fragrant flowers profusely borne in May-June.

2 to 3 ft.....	\$.25
3 to 4 ft.....	.35
4 to 5 ft.....	.50

GOLDEN LEAF MOCK-ORANGE (P. coronarius aureus)

Brilliant yellow foliage in spring, holding color fairly well throughout the summer. White flowers, May and June.

15 to 18 in.....	\$.30
18 to 24 in.....	.40

VIRGINAL MOCK-ORANGE (P. virginalis)

Here is the most beautiful variety of its class. It produces large double-crested flowers of pure white, deliciously fragrant. Blooms two and one-half inches across and in May and early June completely cover the branches. Bloom all summer.

18 to 24 in.....	\$.30
2 to 3 ft.....	.40
3 to 4 ft.....	.50
4 to 5 ft.....	.75

Virginal Mock-Orange

SNOWBERRY

Valued for planting in partially-shaded places and for the showy, attractive berries of autumn. Small, pink flowers in clusters all summer.

SNOWBERRY (Symphoricarpos racemosus)

Waxy, showy snow-white berries in autumn, as large as cranberries. Effective in masses.

2 to 3 ft.....	.30
3 to 4 ft.....	.40

CORALBERRY (S. vulgaris)

In autumn and winter its long, slender branches, covered with racemes of coral-red berries, bend gracefully to the ground. Very attractive.

18 to 24 in.....	\$.25
2 to 3 ft.....	.35

BUSH HONEYSUCKLE

MORROW HONEYSUCKLE (Lonicera morrowii)

White flowers in May and June, followed in July and August with bright red fruit. Each

2 to 3 ft. \$.35
3 to 4 ft.50

TATARIAN HONEYSUCKLE (L. tatarica)

Pink, red and white flowers and fruit freely produced. A most adaptable shrub. Please state color wanted.

2 to 3 ft. \$.35
3 to 4 ft.50

WINTER HONEYSUCKLE (Lonicera fragrantissima)

Half Evergreen. So called because of persistent foliage and the early appearance of the fragrant flowers in March. Red berries in summer.

3 to 4 ft. \$.40
4 to 5 ft.50

PINK HONEYSUCKLE

The slender spreading branches are covered with small pink flowers in Spring and followed with bright red berries in the summer, which make this shrub very attractive.

2 to 3 ft. \$.30
3 to 4 ft.40

WEIGELA

Popular and showy shrubs whose branches bend beneath the weight of their abundance of pretty flowers, resembling in form the honeysuckle. Needed in all shrub borders, large or small.

RED-FLOWERED WEIGELA (Weigela Eva Rathke)

The Everblooming Weigela. Dark red flowers, marked white, and splendid foliage produce an effect not to be had in any other shrub; flowers continuously.

18 to 24 in. \$.40
2 to 3 ft.50

PINK WEIGELA (Weigela rosea)

Showy, pink flowers freely produced. June. Vigorous grower.

2 to 3 ft. \$.30
3 to 4 ft.40

VARIEGATED-LEAVED WEIGELA

(Weigela nana variegata)

Very pretty, dense shrub; leaves variegated with white and yellow. Flowers clear rose in June.

2 to 3 ft. \$.35
3 to 4 ft.50

LILACS

COMMON LILAC (Syringa vulgaris)

Will never lose its popularity. Purple flowers in May.

2 to 3 ft. \$.30
3 to 4 ft.40
4 to 5 ft.60

WHITE LILAC (S. vulgaris alba)

The familiar white flowering variety blooming in May.

2 to 3 ft. \$.50

FRENCH LILACS—NAMED VARIETIES

Improved form of Lilac with larger, more fragrant and earlier clusters of flowers.

Charles the Tenth, reddish purple, single

Marie LeGrave, single white

Michel Buehner, double lilac

Mme. Lemoine, double white

President Grevy, double blue

2 to 3 ft. \$.75
3 to 4 ft. 1.00

HYDRANGEAS

Among the best and most popular shrubs, valuable for their wealth of late summer blooms.

PEEGEE HYDRANGEA (Paniculata Grandiflora)

Large flowers, first snowy white, then pink, then reddish bronze and green. Blooms from middle summer until fall. Best selling variety of Hydrangeas grown.

18 to 24 in.....	\$.35	3 to 4 ft.....	\$.50
2 to 3 ft.....	.40	4 to 5 ft.....	.75

TREE HYDRANGEA (Paniculata grandiflora standard)

Flowers similar to bush form.

2 to 3 ft.....	\$.50	3 to 4 ft.....	\$.75
----------------	--------	----------------	-------

HILLS OF SNOW HYDRANGEA

(Arborescens grandiflora)

Conspicuous white flowers in great clusters during mid-summer. Suitable for shady places.

18 to 24 ft.....	\$.35	3 to 4 ft.....	\$.60
2 to 3 ft.....	.45		

Tree Hydrangea and California Privet Hedge

ILEX—HOLLY

FINE-TOOTH HOLLY (Ilex sieboldi)

Medium height shrub, twigs densely covered with holly-like berries, very suitable to use with broadleaf evergreens.

2 to 3 ft.....	\$.85
3 to 4 ft.....	1.10

WINTERBERRY (Ilex verticillata)

Bright red berries persisting to mid-winter; very attractive.

2 to 3 ft.....	\$.60
3 to 4 ft.....	.75

AMERICAN HOLLY refer to page 32.

OTHER POPULAR SHRUBS

BUTTERFLY BUSH (Buddelia farquhari)

So named because blooms attract large numbers of butterflies. This fact makes the plant very interesting, especially to children. Matures first year. Blooms profusely, lilac colored tapering panicles, 6 to 10 inches long.

	Each
2 to 3 ft.....	\$.30
3 to 4 ft.....	.40

BUTTERFLY BUSH—ILE DE FRANCE

(New.) A splendid vigorous new variety carrying in summer fragrant masses of brilliant rosy, violet-purple flower spikes.

2 to 3 ft.....	\$.50
3 to 4 ft.....	.75

CHINESE BEAUTYBERRY (Callicarpa purpurea)

Most graceful recurving branches, covered in August with tiny pink-tinted flowers. Followed in late September by masses of violet-purple berries, which last until midwinter.

18 to 24 in.....	\$.25
2 to 3 ft.....	.35
3 to 4 ft.....	.50

BEAUTY BUSH (Kolkwitzia amabilis)

A beautiful shrub similar to the Weigela. Mass of pink flowers, early May.

2 to 3 ft.....	\$.50
3 to 4 ft.....	.60

FLOWERING QUINCE (Cydonia Japonica)

Large, scarlet flowers in masses in May make this one of the most attractive of the spring-flowering shrubs. Foliage, dark glossy green.

18 to 24 in.....	\$.40
2 to 3 ft.....	.50

FLOWERING ALMOND (Amygdalus nana)

Flowers double, May; very showy; there are Pink and White varieties.

18 to 24 in.....	\$.50
2 to 3 ft.....	.75

SWEETSHRUB (Calycanthus floridus)

Much planted for its fragrant, strawberry-scented, chocolate-colored blossoms, spring and summer.

18 to 24 in.....	\$.35
2 to 3 ft.....	.50

It's not a home until it's planted

THE POPULAR HEDGE PLANTS

BARBERRY AND PRIVET

JAPANESE BARBERRY (Berberis thunbergi)

The best low, dense, hedge plant grown. Leaves very green and attractive during summer months, turning a rich crimson in autumn, branches drooping with loads of bright red berries which hang on until late winter.

	Each	Per 10	Per 100
9 to 12 in.....	\$0.15	\$1.25	\$10.00
12 to 15 in.....	.20	1.50	12.50

2 to 2½ ft.....	.40	3.50	25.00

NEW RED-LEAVED JAPANESE BARBERRY (Berberis thunbergi atropurpurea)

A brilliant red-leaved Japanese barberry for mixing in the shrubbery border, as single specimens, or clumps on the lawn, foundation plantings and for hedges. The foliage is a rich, lustrous, bronzy red, similar to the richest red-leaved Japanese maples. To develop its brilliant coloring at all seasons it must be planted in full sunlight.

	Each	Per 10
12 to 15 in.....	\$.30	\$2.50
15 to 18 in.....	.40	3.50
18 to 24 in.....	.50	4.50

CALIFORNIA PRIVET. The most popular hedge plant on account of its beauty, adaptability, and low cost. Did you ever realize what an admirable and luxuriant privet hedge you could secure at a very small cost, and how much it would add to the value of your property? To find the exact number wanted, measure the space where it is to be planted and multiply the number of feet by two.

They should be planted 3 inches deeper than they stood in the nursery row. Set the plants 6 inches apart in the row. Dip the roots in water before planting. After plants are set, cut them down to 4 inches from the surface of the ground. This will cause a thick new growth to start and is very essential for a beautiful hedge.

	Per 100	Per 1000
6 to 12 in., 1 year.....	\$2.00	\$15.00
12 to 18 in., 1 year.....	3.00	25.00
18 to 24 in., 1 year.....	4.00	35.00

Two-year cut back last spring, this has made a bushy, well branched plant, the one to use for immediate effect.

2 to 3 ft., 2 year.....	\$5.00	\$45.00
3 to 4 ft., 2 year.....	7.50	60.00

GOLDEN VARIEGATED PRIVET

Brilliant yellow foliage; dwarf, good in clumps among, or in front of, low evergreens or shrubs.

	Each

5 to 6 ft.....	4.50
6 to 8 ft.....	6.00
8 to 10 ft.....	7.50

CYPRESS

LAWSON'S CYPRESS

(*Chamaecyparis lawsoniana alumi*)

A tall pyramidal, extremely formal type, having very distinctive silvery blue foliage, giving a useful color variation to a group planting.

18 to 24 in.....	\$1.25
2 to 2½ ft.....	1.75
2½ to 3 ft.....	2.25
3 to 4 ft.....	3.00
4 to 5 ft.....	3.75
5 to 6 ft.....	4.50

TRIOMPHE DE BOSKOOP

Handsome evergreen, narrow pyramidal, steel-blue leaves. Bark reddish brown.

	Each
3 to 4 ft.....	\$2.25
4 to 5 ft.....	3.00
5 to 6 ft.....	4.00

SLENDER HINOKI CYPRESS

(*Chamaecyparis gracilis*)

Narrow, irregular pyramid, rich dark green foliage. Slow grower, picturesque.

2½ to 3 ft.....	\$2.25
3 to 4 ft.....	3.00
4 to 5 ft.....	3.75

DWARF HINOKI CYPRESS (*Chamaecyparis nana*)

Very slow growing, dwarf. Rich, dark green color. Useful in base plantings.

18 to 24 in.....	\$2.25
2 to 3 ft.....	3.00

FIR**WHITE FIR** (*Abies concolor*)

Grows quickly and forms symmetrical, beautiful specimen. Large, gray-green needles.

18 to 24 in.....	\$1.50
2 to 3 ft.....	2.50
3 to 4 ft.....	3.50
4 to 5 ft.....	5.00

FRASER FIR (*Abies fraseri*)

A compact pyramidal tree from the North Carolina mountains. Foliage, dark green on the surface and blue underneath. Essentially a specimen tree.

2 to 3 ft.....	\$1.75
3 to 4 ft.....	2.50
4 to 5 ft.....	3.50
5 to 6 ft.....	5.00

DOUGLAS FIR (*Pseudotsuga douglassi*)

Very hardy; dark bluish-green coloring. Prefers well-drained situation.

18 to 24 in.....	\$1.00
2 to 3 ft.....	1.50
3 to 4 ft.....	2.25
4 to 5 ft.....	3.50
5 to 6 ft.....	4.50
6 to 7 ft.....	6.00

HEMLOCK**CANADIAN HEMLOCK** (*Tsuga canadensis*)

An elegant pyramidal tree with drooping branches and delicate dark green foliage. Excellent for lawn purposes, also suited for hedges. Does well in shady or sunny locations.

18 to 24 in.....	\$1.10
2 to 2½ ft.....	1.50
2½ to 3 ft.....	2.25
3 to 4 ft.....	3.50
4 to 5 ft.....	4.00
5 to 6 ft.....	5.00
6 to 7 ft.....	6.50

CAROLINA HEMLOCK (*Tsuga caroliniana*)

Handsome habit; dark green, dense tufted foliage; hardy.

18 to 24 in.....	\$1.50
2 to 2½ ft.....	2.25
2½ to 3 ft.....	3.00

In most varieties we can supply smaller or larger sizes than listed. Prices on application.

Pfitzer's Juniper

JUNIPERS

PFITZER'S JUNIPER (*Juniperus chinensis pfitzeriana*)
Broad, bushy habit. Gray-green foliage, giving feathery appearance. A most adaptable hardy evergreen; highly recommended.

	Each		Each
15 to 18 in.....	\$1.00	3 to 4 ft.....	\$3.00
18 to 24 ft.....	1.50	4 to 5 ft.....	4.00
2 to 3 ft.....	2.50	5 to 6 ft.....	5.00

STEIN'S SPREADING JUNIPER

(*Juniperus chinensis steinii*)

This low spreading juniper has proven perfectly hardy. Its stems and branchlets overlap one another in such a manner as to form neat, low spreading masses of green. Because of its attractive green color and its thrifty robust nature, it makes an outstanding tree of its type.

10 to 12 in.....	\$1.00	15 to 18 in.....	\$2.50
12 to 15 in.....	1.50	18 to 24 in.....	3.50

CHINESE JUNIPER

(*Juniperus chinensis*)

Formal columnar outline, gray green foliage. A splendid hardy evergreen.

4 to 5 ft.....	\$3.00	6 to 8 ft.....	\$4.50
5 to 6 ft.....	3.75		

COLUMN CHINESE JUNIPER

(*Juniperus chinensis pyramidalis*)

Grows rapidly, forming tall narrow column of gray-green foliage. Spire-like effect. Very useful in evergreen planting.

3 to 4 ft.....	\$2.75	5 to 6 ft.....	\$5.00
4 to 5 ft.....	3.50		

WHITELEAF CHINESE JUNIPER

(*Juniperus chinensis albo variegata*)

Light bluish foliage intermingled with cream colored branches making a very distinctive plant of formal pyramidal shape.

15 to 18 in.....	\$1.50	2½ to 3 ft.....	\$2.50
------------------	--------	-----------------	--------

GOLDEN JUNIPER

(*Juniperus communis aurea*)

Low spreading habit. Golden foliage, particularly bright in spring.

18 to 24 in.....	\$1.50	3 to 4 ft.....	\$3.25
2 to 3 ft.....	2.25		

IRISH JUNIPER (*Juniperus communis hibernica*)

Slender, columnar form, compact bluish-green foliage.
Formal type.

	Each		Each
2 to 2½ ft.....	\$1.25	3 to 4 ft.....	\$2.50
2½ to 3 ft.....	1.75	4 to 5 ft.....	3.25

ANDORRA SPREADING JUNIPER(*Juniperus depressa plumosa*)

New, exceedingly hardy, assumes a very attractive
purple color in winter. Transplants readily.

12 to 15 in.....	\$.75	2 to 3 ft.....	\$2.25
15 to 18 in.....	1.00	3 to 4 ft.....	3.00
18 to 24 in.....	1.50		

WAUKEGAN JUNIPER(*Juniperus horizontalis douglasi*)

Long branches trailing along ground. Steely-blue foli-
age. A splendid ground cover; also effective among
rock. Distinct purple hue in winter.

15 to 18 in.....	\$1.00	2 to 3 ft.....	\$2.50
18 to 24 in.....	1.75		

SPINY GREEK JUNIPER (*Juniperus excelsa stricta*)

Compact, well-shaped pyramid. Foliage gray-green.
Most useful for formal effects.

10 to 12 in.....	\$.75	2 to 2½ ft.....	\$2.25
12 to 15 in.....	1.00	2½ to 3 ft.....	3.25
15 to 18 in.....	1.35	3 to 3½ ft.....	4.00

SAVIN JUNIPER(*Juniperus sabina*)

Dense, dark green foliage. Spreading branches, form-
ing irregular vase-shaped bush.

15 to 18 in.....	\$1.00		
18 to 24 in.....	1.65		
2 to 2½ ft.....	2.00		
2½ to 3 ft.....	3.00		

MEYER JUNIPER (*Juniperus squamata meyeri*)

Upright, close, irregular grower, with a beautiful bluish
foliage; well branched and wide at the bottom.

18 to 24 in.....	\$2.25		
2 to 3 ft.....	3.00		

COLORADO JUNIPER (*Juniperus scopulorum*)

Narrow, compact and very symmetrical. Color ranges
from green to light blue.

2 to 3 ft.....	\$1.75		
3 to 4 ft.....	2.50		

GOLDTIP REDCEDAR(*Juniperus virginiana elegantissima*)

This tree will give variation to the green and blue colors
of other evergreens. Broad and bushy with slightly
drooping foliage.

3 to 4 ft.....	\$2.25		
4 to 5 ft.....	3.00		
5 to 6 ft.....	4.50		

SILVER REDCEDAR (*Juniperus virginiana glauca*)

Broadly conical form and beautiful glaucous blue foliage
make it one of the choicest Junipers.

2½ to 3 ft.....	\$2.50		
3 to 4 ft.....	3.25		
4 to 5 ft.....	4.00		
5 to 6 ft.....	5.00		

CANNART REDCEDAR (*Juniperus virginiana cannarti*)

Has fresh green foliage. Compact formal columnar
habit. Good winter color, quite hardy. Quite amen-
able to trimming.

3 to 4 ft.....	\$3.25		
4 to 5 ft.....	4.50		
5 to 6 ft.....	6.00		

PINES

AUSTRIAN PINE (Pinus nigra)

Rich, dark green. Vigorous, dense grower. Good for background.

	Each
2 to 3 ft.....	\$1.50
3 to 4 ft.....	2.50
4 to 5 ft.....	4.00
5 to 6 ft.....	5.00

SCOTCH PINE (Pinus sylvestris)

A rapid-growing, handsome tree, especially when young. Good for windbreaks.

2 to 3 ft.....	\$1.00
3 to 4 ft.....	1.75
4 to 5 ft.....	2.75
5 to 6 ft.....	4.50

HOLLY

The transplanting of Hollies is not difficult if handled properly. Our Hollies are several times transplanted and can be dug with a good ball of earth, and are almost sure to grow.

AMERICAN HOLLY (Ilex opaca)

The bright, red berries of our own American Holly lend a cheerful note to the landscape during the winter months. It may be used in the border planting or as a specimen, and succeeds in any loamy, well-drained soil.

	Each		Each
15 to 18 in.....	\$1.50	3 to 3½ ft.....	\$4.50
18 to 24 in.....	2.25	3½ to 4 ft.....	5.25
2 to 2½ ft.....	3.00	4 to 5 ft.....	6.00
2½ to 3 ft.....	3.75		

JAPANESE HOLLY (Ilex crenata)

Shrub with glossy, dark green leaves and black berries.

18 to 24 in.....	\$1.75
2 to 2½ ft.....	2.50

AMERICAN HOLLY

Perhaps it was three hundred years ago when the holly tree pictured above began to grow. For approximately three centuries it has grown. This tree, located near York Furnace, in the southern part of York County, has become the largest known specimen of its kind in this latitude. It is estimated to be 75 feet high, with a circumference at the base of about 65 inches and with a two-foot diameter. In 1935, through the efforts of the Conservation Society of York County, a suitable marker was placed at the base of the tree.

BOXWOODS**BOXWOOD** (*Buxus sempervirens*)

Useful for formal hedges. Specially desired for planting as individual specimens on lawns or in tubs.

	Each
10 to 12 in.....	\$.50
12 to 15 in.....	.75

21 to 24 in.....	5.00

ORNAMENTAL CLIMBING VINES

BOSTON IVY

(Ampelopsis veitchi)

Brilliant autumn coloring, blue berries, turning black; closely self-clinging. Also called Japanese Creeper.

18 to 24 in.....	\$.50
------------------	--------

ENGLISH IVY

(Hedera helix)

Good ground cover in shady locations. An ideal wall cover. Evergreen.

3 in. pots.....	\$.25
-----------------	--------

CLEMATIS PANICULATA

The flowers are of medium size, fragrant, pure white, borne in immense sheets in September.

2-year, first-class.....	\$.35
--------------------------	--------

SILVER LACE VINE

(Polygonum auberti)

Climbing plant of vigorous growth that produces through summer and fall great foamy sprays of white flowers.

2 year, No. 1.....	\$.75
--------------------	--------

WISTERIA SINENSIS

(Chinese Wisteria)

Good for pergolas, porches and trellises; dense drooping clusters of pea-shaped purple-blue flowers.

2 to 3 ft. grafts.....	\$.75
------------------------	--------

ORNAMENTAL HARDY GRASSES

EULALIA JAPONICA. Long, narrow, graceful green foliage, and when in flower the silvery grey plumes are very attractive.

EULALIA JAPONICA VARIEGATA. Very ornamental; long, narrow leaves, striped green and white.

EULALIA JAPONICA ZEBRINA. The long blades of this variety are marked with broad, yellow bands across the leaf. Sometimes called Zebra Grass.

Strong clumps.....	\$.25
Extra heavy clumps.....	.50

ROSES

Our roses, field grown for two years, come to you potted in Cloverset pots, ready to set out in your garden in the Spring and produce an abundance of bloom the same season.

EVERBLOOMING AND HYBRID TEA ROSES

Prices, Except Where Noted

\$.75 each, \$3.50 for 5, \$6.50 for 10

Strong 2-yr. field-grown plants, potted in Cloverset pots.

EDITH NELLIE PERKINS. A Rose of outstanding merit, vigorous in growth and free flowering. Long, pointed bud; flower of good size, long lasting and fragrant, double; outside of petals orient-red shaded cerise-orange; inside salmon-pink.

MRS. PIERRE S. DU PONT. Medium sized long-pointed bud of a reddish gold opening to a semi-double, cupped, very lasting fragrant flower of a deep golden yellow. The plant is of strong vigorous compact growth. A profuse and continuous bloomer. 90c each.

KAISERIN AUGUSTA VICTORIA. A favorite old white with shapely, long-pointed bud and good sized, double, fragrant flower.

BETTY UPRICHARD. Brilliant copper-red buds and semi-double salmon-pink flowers stained with copper-pink on the outside.

RADIANCE. Large, fragrant, long-stemmed, brilliant rose-pink flowers; most popular pink rose in America.

RED RADIANCE. Identical with Radiance, except flowers are of a deep red color.

E. G. HILL. Beautiful long bud of perfect form and full double, high-centered flower of dazzling scarlet, shading to a deeper red as it develops.

PRESIDENT HOOVER. Very fragrant with broad thick, heavy petals. The color is a combination of deep pink, flame, scarlet and yellow.

MISS ROWENA THOM. Bud large, long pointed. Brilliant rose-pink with golden suffusion. Growth vigorous and a free and constant bloomer.

MME. BUTTERFLY. Beautiful buds and flowers, light soft pink tinted yellow at base of petals, very free and highly scented.

REV. F. PAGE-ROBERTS. Golden yellow and cream in the inside of the flower, stained copper and dull red on the outside.

MRS. G. A. VAN ROSSEM. A marvelously beautiful Rose with a unique color combination, a most striking blending of vivid orange and apricot on a golden-yellow ground with frequently touches of bronze on the reverse of the petals.

MARGARET MCGREDY. Bud very large and long pointed; flower large, shapely, long lasting, very double, fragrant, brilliantly colored, a rich shade of Oriental-red passing as it ages to carmine-rose. Vigorous and free flowering.

MRS. HENRY MORSE. One of the best light pink colors, two contrasting tones of pink with an underlying yellow glow; bud long pointed, flower very large, double and high-centered, fragrant and very free flowering.

VILLE DE PARIS. Round buds of clear yellow. The bloom is much like Radiance.

COUNTESS VANDAL. Plant Patent No. 38. Copper and salmon. An upright-growing, vigorous Rose with rich-colored attractive, disease-resistant foliage. \$1.00 each.

BETTER TIMES. Plant Patent No. 23. The brilliant cerise flowers are large, double and delicately fragrant. An ideal cut-flower. Foliage is leathery and dark green. \$1.25 each.

MRS. SAM MCGREDY. Scarlet-orange. It is double, with 30 to 40 petals, and richly fragrant. Both plant and flower are very distinctive. \$1.00 each.

HARDY CLIMBING ROSES

Except where noted, \$.75 each, \$3.50 for 5.

Strong field-grown plants, potted in cloverset pots.

MME. GREGOIRE STAECHELIN. "The Spanish Beauty." Today's wonder rose. Buds long-pointed, flowers large, semi-double. Buds maroon changing from carmine to pearly pink as petals unfold.

DR. W. VAN FLEET. Rich shell pink.

CLIMBING AMERICAN BEAUTY. Large buds and flowers of bright purplish crimson.

SILVER MOON. Favorite white climber; flowers semi-double, large, with brilliant yellow stamens.

NEW EVERBLOOMING CLIMBING ROSES

BLAZE. Plant Patent No. 10. An important introduction; bringing the unusual charm of plenteous clustered bloom, many weeks beyond the accustomed time for climbing roses. Fiery scarlet. \$1.00 each.

NEW DAWN. Plant Patent No. 1. The gracious double form and delicate flesh-pink color of Dr. W. Van Fleet; blooms almost continuously from June to October. \$1.50 each.

ROSE GARDEN SPRAY TREATMENT

Positive protection against all Insects and Diseases

TRI-OGEN gives complete protection against all plant insects and diseases, including black-spot, mildew, aphids (plant-lice), slug-worms, caterpillars, etc.

The stimulating value of TRI-OGEN promotes vigor and growth, healthy green foliage, with resulting luxuriant blooms.

GARDEN SUPPLIES

WHITE ROSE PLANT FOOD. 5-lb. pkg., 50c.; 10-lb. pkg., 85c.; 25-lb. bag, \$1.50; 50-lb. bag, \$2.50; 100-lb. bag, \$4.00.

BONE MEAL. A safe and effective plant food. Especially good on lawns. One pound will sow 10 sq. ft. 1 lb., 10c.; 5 lbs., 40c.; 10 lbs., 60c.; 25 lbs., \$1.00; 50 lbs., \$1.50; 100 lbs., \$2.75.

ALUMINUM SULPHATE. To create acid soil for Rhododendrons and Azaleas. Apply $\frac{1}{2}$ to 1 lb. per sq. yd. scattered over the surface. Repeat every six months. 5 lbs., 50c.; 10 lbs., 85c.; 25 lbs., \$1.75.

CUT TOBACCO STEMS. Fine for mulching trees, shrubs, lawn, roses, etc. Helps to keep insects away. 100 lbs., \$1.50. Ask for price on larger quantities.

PEAT MOSS. Valuable for mulching and mixing with the soil in ornamental plantings. $\frac{1}{4}$ bale, \$1.50; $\frac{1}{2}$ bale, \$2.00; 1 bale, \$3.00.

SOIL. Carefully selected top-soil, rich in plant food. 100 lbs., 50c.; 500 lbs., \$2.00; 1000 lbs., \$3.50.

FEENY HAND DUSTER. The best duster made. Model B, \$1.00; Model BX, \$1.25.

DUSTING SULPHUR. Very useful to control Red Spider on Evergreens. 1 lb., 15c.; 5 lbs., 60c.; 10 lbs. \$1.00.

DOGZOFF. A spray that is the result of much thought and scientific experimentation. Its use discourages dogs from the habits that are so destructive to evergreens; and from frequenting any place where they are undesirable and not wanted. Price for season's supply, 60c.

SUCCESSFUL PLANTING, PRUNING AND CARE OF STOCK

The bundles should be opened immediately, the roots dipped in water, then heeled in moist ground so that the mellow earth will come in contact with the roots and thoroughly protect them from the air, having the earth tramped solid about them.

When ready to plant, take up only a few at a time, puddle the roots and do not allow them to lie exposed to the sun or air.

The ground should be carefully prepared by deep plowing and firming down with a disc and harrow.

PLANTING

The holes for planting must be large enough to receive the roots freely, without cramping or bending them from their natural position. All broken or mutilated portions of the roots must be cut off so as to leave the ends smooth and sound. All trees should be planted two or three inches deeper than they stood in the nursery row; **pack the soil very firmly about the roots by tamping with the feet or post tamper**, being careful not to bark or break the roots. Leave three inches of the surface soil loose to serve as a mulch. If the ground is very dry apply one to two pails of water before this soil mulch is in place, and after the water has soaked away it can then be placed over the moist soil.

PRUNING

Many failures of newly transplanted stock are due to the lack of proper pruning. When the trees are dug in the nursery, some of the feeding roots are left in the ground, therefore, when transplanting it is necessary to restore the balance between the roots and the top by removing part of the tops.

In pruning, make a clean, sharp cut. Do not leave stub ends in removing branches. Pruning shears, knives and hand saws are the best tools to use. All tools should be sharp.

FRUIT TREES. One of the most important items in the care of fruit trees is to see that they are trained right from the start. Our two-year-old and larger sizes have the heads already formed, with three to five scaffold limbs well arranged along the trunk to support the head. These trees should be cut back, leaving just the scaffold limbs shortened to the point where it is desired to have the head of the tree.

One-year trees, or whips, should be trimmed to smooth, straight stems, cutting them squarely off at the distance from the ground at which it is desired to have them branch. Usually, apples, plums, pears, and cherries are headed a little higher than peaches, which ought to be encouraged to branch as low as possible.

SHADE TREES. With shade trees having a heavy top at least one-third of the top should be removed. Prune to avoid crowding branches. Cut out some of the small branches, shorten back the side branches, but do not cut off the leader or main stem. Try to get well developed head, strong leader and branches at wide, not close, angles. Cut off all broken roots.

SHRUBS. It is easiest to prune shrubs before they are planted. This is likewise the only time the roots can be pruned. Cut off damaged or frayed roots just above the point affected. Thin out tops of many branched shrubs, removing the old wood. Cut tops back from one-third to one-half.

EVERGREENS. At planting time evergreens seldom need pruning. If well grown like ours they are shapely and when handled with balls of soil they should grow off without trouble. However in a year or so some varieties are inclined to grow "open." Then shearing may be done with hedge tools, clipping the young growth, preferably not further than that made the previous season. This causes the inner branches to advance making a very close and compact plant, thus hiding the unsightly interior of open trees. Topping, too, may be done but please try and cut to a small branch that will again develop into a leader. Chopping the tops off flat often makes good trees resemble a sawed-off board or log. **Important**—Prune evergreens when they are growing—better just as the spring growth comes on and at least before it becomes hard in July.

WINTER PROTECTION FOR EVERGREENS. Evergreens during the first Winter after planting should have some form of protection. Wind and sun may cause damage on account of excessive evaporation of moisture from the foliage at a time when no moisture is being taken in through the roots. When subject to alternate freezing and thawing protect also against heaving of the soil.

Moisture evaporation may be prevented by the erection of a burlap shield as a windbreak to ward off strong drying winds. Avoid wrapping too tightly or injury to the plant will result from heating of foliage.

To prevent heaving of the soil provide a ground mulch of strawy manure, cut tobacco stems or any material (other than fresh manure) which will form a light, loose covering.

Be sure, too, that the ground is thoroughly saturated with moisture before it finally freezes up, and leave no holes near the plants for the water to collect and freeze.

SUITABLE DISTANCE FOR PLANTING

Apples—30 to 40 feet apart each way.

Standard Pears and Cherries—20 feet apart each way.

Plums, Peaches and Apricots—16 to 18 feet apart each way.

Dwarf Pears and Quinces—10 to 12 feet apart each way.

Grapes—rows of 10 to 16 feet apart; 7 to 10 feet in rows.

Currants and Gooseberries—4 feet apart.

Raspberries and Blackberries—3 to 4 by 5 to 7 feet.

Strawberries, for field culture—1 by 3 to 3½ feet.

Strawberries, for garden culture—1 to 2 feet apart.

Asparagus, for field culture—18 to 24 inches by 3½ to 4 feet.

Asparagus, for garden culture—18 to 24 inches apart each way.

NUMBER OF TREES OR PLANTS TO THE ACRE

40 feet apart each way.....	28
30 feet apart each way.....	48
20 feet apart each way.....	110
18 feet apart each way.....	135
15 feet apart each way.....	205
12 feet apart each way.....	300
10 feet apart each way.....	435
8 feet apart each way.....	680
6 feet apart each way.....	1,210
5 feet apart each way.....	1,745
4 feet apart each way.....	2,725
3 feet apart each way.....	4,840

RULE—Multiply the distance in feet between the rows by the distance the plants are apart in the rows, and the product will be the number of square feet for each plant, which, divided into the number of square feet in an acre (43,560), will give the number of plants or trees to the acre.

We invite you to come to the nursery
and select your stock before it is dug.

IT'S NOT A HOME UNTIL IT'S PLANTED
